

We need to ensure all individuals who enter TCHCC adhere to the following Core Principals of Covid-19

Core Principles of Covid-19 Infection Prevention to follow;

- Screening of all who enter the facility for signs and symptoms of COVID-19 (e.g., temperature checks, questions or observations about signs or symptoms), and denial of entry of those with signs or symptoms.
- Hand hygiene (use of alcohol-based hand rub is preferred)
- Face covering or mask (covering mouth and nose)
- Social distancing at least six feet between persons
- Instructional signage throughout the facility and proper visitor education on COVID-19 signs and symptoms, infection control precautions, other applicable facility practices (e.g., use of face covering or mask, specified entries, exits and routes to designated areas, hand hygiene)
- Cleaning and disinfecting high frequency touched surfaces in the facility often, and designated visitation areas after each visit
- Appropriate staff use of Personal Protective Equipment (PPE)
- Effective cohorting of residents (e.g., separate areas dedicated COVID-19 care)
- Resident and staff testing conducted as required at 42 CFR 483.80(h) (see QSO-20-38-NH)

Thank you for keeping Covid-19 out of our facility and keeping our clientele, residents, and staff safe.

Jerry Deetz, Executive Director
